

## Home Testing Kits

YorkTest is a leading provider of quality-assured and accurate food intolerance, allergy and health tests. It doesn't just stop with the home-to-laboratory tests, either. With YorkTest, you will not only find the root cause of gut health issues, but also receive advice and support to help individuals gain back control of nutrition and overall health.

Many people can go their entire life suffering from symptoms that could be caused by food intolerances, stress or other health conditions. YorkTest's range of tests are designed to empower your employees to better understand, take control of, and optimise their health and wellbeing.
